Dear Recruiter,

I am currently a graduate student at the University of San Francisco pursuing Master's in Computer Science and seeking summer internship for summer 2020. I came across the job posting for the same and I personally feel that I will be able to bring something extra to the table due to past experiences and multifarious skills gained hitherto. As an experienced software engineer with expert knowledge in C#, Java, HTML/CSS, JavaScript/Jquery, SQL Server, Web Services and .Net Framework, I feel confident that I am the right person to help the organization reach the next level of success.

I offer 5 years of development experience, a strong aptitude for learning new technologies, and a proven track record of meeting aggressive goals. My most notable skills include:

- **Software Development:** I bring over 5 years of experience developing software for multiple clients in various environments. I possess solid knowledge of object-oriented programming and software development life cycle. I highly encourage the use of coding standards to improve the overall code quality.
- **Project Execution & Delivery:** I have been successful in developing and delivering projects from conception and design through QA and deployment both independently and as a team member.
- **Communication Skills:** I am comfortable communicating with technical and non-technical employees throughout the company at all levels in order to complete projects and achieve organizational goals.

Overall, I feel that my knowledge and experience as a software engineer with my passion for new technologies makes me the ideal candidate to meet your development needs. I'd be glad to discuss my abilities and background with you in more detail. Thank you for your time and consideration.

I have attached my resume for your ready reference and I look forward to meeting you for the summer internship position

Sincerely,
Nikhil Bhutani
